

Business Management System Policy

Consciously strive to be **environmental stewards and prevent pollution.**

Understanding by team members that they have the responsibility to **make safe choices** and have the freedom, authority and responsibility to stop any job where safety is at risk.

Legal, conformance and self-imposed responsibilities are met.

Targets, goals and objectives are established and reviewed to drive continual improvement.

Understanding by team members that they have the **responsibility to identify quality issues** and stop production and shipment if necessary.

Review of Business Management System (SMS, EMS and QMS) to ensure continual improvement.

Ensuring that we **take care of all of our customers** which include those that purchase and use our products, our team members and our shareholders.
