

5.2 Environmental Policy

Purpose: Taking into consideration the environmental conditions in which the company operates, the management of NYS/NCA is committed to the continual improvement of the Environmental Management System by following their compliance obligations and by following the principles and requirements of ISO 14001:2015.

Scope: The framework for setting environmental objectives is defined in the Environmental Manual.

Procedure: All employees of NYS/NCA are acting to protect the environment by preventing and eliminating environmental pollution through creation of lifecycle initiatives directed at a reduction of natural resources, preservation of land, air, water, and long-term sustainability through our products and services.

NYS/NCA management has established an environmental policy to manage the environmental aspects of our operations:

“Our goal is to take care of our customers!”

We will do this by being the safest, highest quality, lowest cost,
Most productive, most profitable steel making facility in the world.

We will accomplish this by being cultural and
Environmental stewards in our community and by working together.

LET'S DO IT TOGETHER!
