

## Safety, Quality & Environmental Policy

As a leading supplier in steel plate products, our Nucor Brandenburg team is committed to an incident free environment, commercial excellence, continual innovation, advancement of sustainable manufacturing and supports the needs of our teammates and interested parties.

**We will achieve this commitment through STEEL:**

**S**afety as a Value. Pursuit of an incident free and psychologically safe workplace.

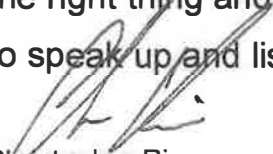

**T**eamwork, working together to foster our culture of development, learning and continuous improvement.

**E**nvironment promoting and implementing programs targeted towards sustainable operations and environmental stewardship.

**E**nsure compliance with relevant specifications, standard, regulatory, legislative and other requirements.

**L**isten, explore and respond effectively to the needs of our teammates, customers, partners and community.

Each Nucor Teammate is responsible for fulfilling these commitments. This policy embodies our culture - dependent on the integrity of each teammate to always do the right thing and reliant on personal responsibility, open communication - courage to speak up and listen, can-do approach, innovation and pride in all we do.
